

**Local AMSAT-DC
Meeting & Space Seminar
SATURDAY, March 15, 2008
11:00 A.M.**

**Historical Electronics Museum
Pioneer Hall**

1745 West Nursery Road
Linthicum, Maryland 21090
Near BWI airport

Probable topics include current amateur satellites, future AMSAT missions, Amateur Radio on the International Space Station (ARISS), SuitSat, high-altitude small balloon experimenter (HASBE) activities, satellite ground station equipment setup, operating tips and more. Same location as last year, at least one more time! A full day of activities!

The format is a combination of presentations, informal “show and tell” demonstrations and a social period, open to all. Plenty of these are geared to the satellite beginner. If you are new to satellites then you will be quite pleased with this once-a-year local AMSAT gathering. New this year will be a Pot Luck luncheon! You may bring your favorite dish to share.

If you wish to present a talk or bring gear to demonstrate then please contact the host, Pat Kilroy, N8PK, at n8pk@amsat.org or phone 301-286-1984.

Talk-in on 146.76 MHz FM.
